

Fair Payment Statement

Our Commitment

SB Construction (Design & Build) Limited is committed to fair and responsible payment of its suppliers and subcontractors, supporting a reliable and sustainable supply chain.

We hold Bronze Fair Payment Code status.

The Bronze award recognises payment of at least 95% of UK invoices within 60 days and a commitment to improving payment practices.

Our Approach

- Agree clear, fair payment terms in writing before work begins and explain invoicing and payment procedures.
- Pay suppliers and subcontractors in accordance with agreed contractual terms and applicable payment requirements. The Bronze threshold does not replace any shorter agreed payment period.
- Raise queries promptly, explain any disputed amounts and work constructively to resolve them without unnecessarily delaying undisputed payments.
- Monitor payment performance and take action to improve our payment practices.

Payment Enquiries

Suppliers and subcontractors should raise payment enquiries with their usual Company contact, with unresolved concerns referred to the Commercial Director.
